If the above button does not work for you. Copy and paste the link to your browser address bar and try again.

When you click the link to activate, it will bring you to a screen that asks you *how* you want to set up your account. Please **DO NOT** choose to sign in with Google or Facebook! Choose the option below that, to **Sign Up with a Password**:

Activate your Zoom Account

Choose the following sign in methods, and use your email address [REDACTED] to continue

Or

You will then be prompted to enter your name and set up a password:

Welcome to Zoom

Hi, dan***@***com. Your account has been successfully created. Please list your name and create a password to continue.

From there, you will always use the email as your username, and the password you just set up. **Don't lose it!** You will need it.

You will then need to practice logging in and out of Zoom (especially if you have more than one account).
