

CLOSED CAPTIONS

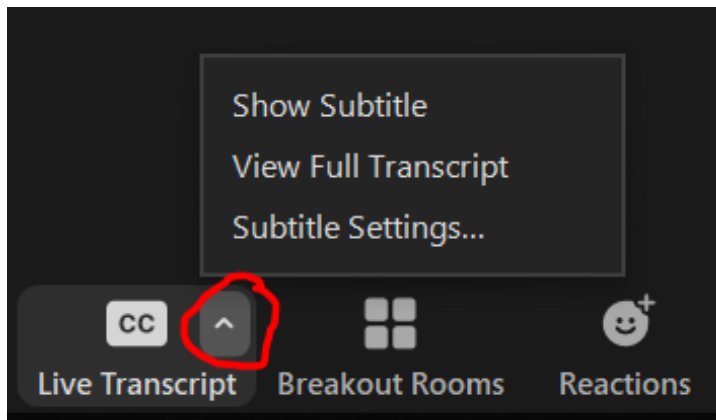

All Zoom classes now have closed captioning available! If you do not see them in your class, please ask your instructor to enable them. You can then adjust your settings to control how they appear on your screen.

Adjust caption settings

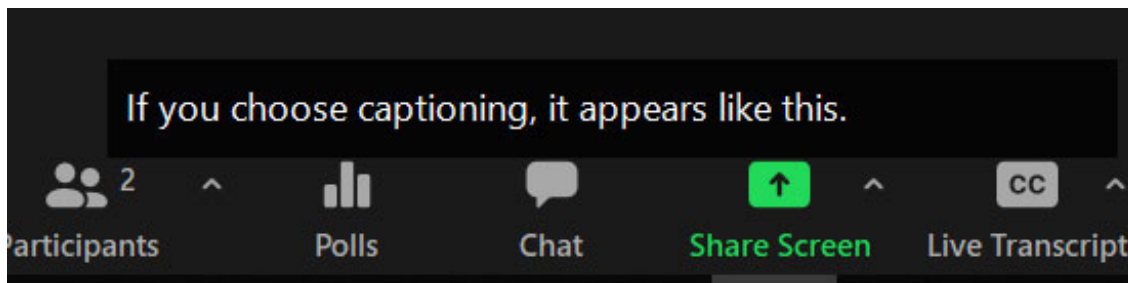

When you go to your Zoom meeting, you should now see **Live Transcript** as one of the options on the bottom:

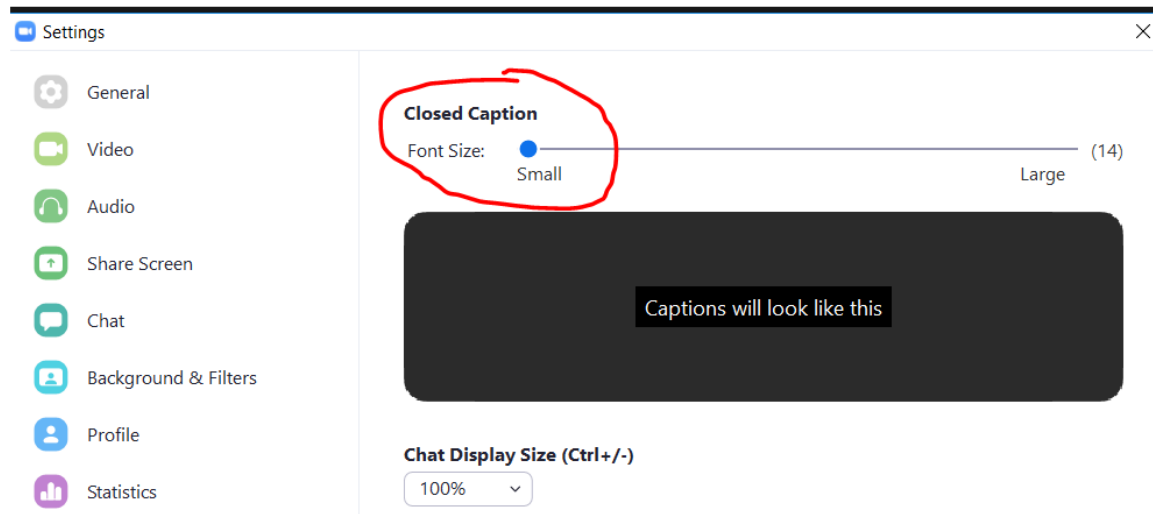

If you click on the little arrow next to Live Transcription, you get some options, **Show Subtitle**, **View Full Transcript**, and **Subtitle Settings**:

If you choose **Show Subtitles**, this is what you will see on the bottom (this should be the default setting when your teacher turns on captions):

You can adjust the settings by clicking **Subtitle Settings** and a window with settings will appear. You can make the captions larger or smaller by sliding the bar:

You can view a full transcript in a new side window by clicking **View Full Transcript**:
